## Aurelio Pedrazzini

Milan July 29th, 1927 / September 30th, 2017

After graduating at the Liceo Artistico, he worked for some years for the pottery company Richard Ginori, directing the department of ceramic decoration. From 1960, he pursued his activity as a freelance professional in the field of ceramic decoration. In the meanwhile he studied oil painting and started his artistic career with his wife Anna Pavesi who also became watercolor Master artist.

In 1966 Aurelio and Anna organized their first painting exhibition at the Centro Culturale Artistico di Milano, the first of a long list in Italy and abroad.

In 1974, Aurelio Pedrazzini was in the group of Italian watercolorists who founded the Associazione Italiana Acquarellisti (AIA).

He participated as a founder member to various international congresses of watercolor painting associations in many countries: Denmark, Finland, Belgium, Iceland and Sweden, then in Bilbao and Llançà in Spain, Dallas in Texas, in the Water Museum of Saint Petersburg in Russia, in the Museo Nacional de la Acuarela in Mexico. He remained an honorary member of AIA Association until 2017.

In 1975 he was asked by the Narodowe Muzeum of Cracovia in Poland for an oil painting and a watercolor painting by his wife – these works are located in permanency at the aisle dedicated to foreign art.

From 1987 up to 1998, upon request of the Municipality of Milan, he taught drawing and oil painting in the lecture rooms of the subway Lambrate. After his wife's death in 1995, he dedicated himself entirely to improve his watercolor technique while maintaining his activity as a teacher at the Center "Fai da te" in Milano and in the head office of CRAL in Galleria Vittorio Emanuele in Milan Municipality.

From 1995 up to 1999 he made a series of didactic books titled "Becoming Artists" describing various painting techniques: oil, watercolor, acrylic and pastel. These books were published by Fabbri Editori and are still distributed in art color stores.

From 2003 up to 2009, he held courses in watercolor and drawing and oil at the Cultural Center "Accademia del tempo libero" at the Istituto Gonzaga in Milan.

**In 2010 he was invited in Fabriano at first edition of "Marche d'Acqua" and "FabrianoInAcquarello", there he started a friendly deep relation with the Fabriano art community and contributed with much effort to grow watercolor local and international culture.**

In 2011 he was invited by the City of Fabriano to present a watercolor solo exhibit in the "Museo della carta e della filigrana di Fabriano".

In 2014 FabrianoInAcquarello edition Aurelio presented "Tinte Unite" the book on Aurelio Pedrazzini and Anna Pavesi professional artistic biography.

*Aurelio Pedrazzini with a sweet but strong personality, a firm consideration for traditional watercolor technique on paper and a deep respect for any Art development and any Artist in the world, was for Fabriano major referent point. FabrianoInAcquarello 2018 is therefore dedicated to his Art and friendship, in the hope that the many Artists who met him in past edition will join Fabriano and Aurelio's family in the effort to tribute him the greeting he deserves.*

## FabrianolnAcquarello 2018

A volte abbiamo bisogno di vedere la nostra città con gli occhi di uno "straniero". Ne abbiamo bisogno perché troppo spesso la diamo per scontata e non ci accorgiamo di vivere in una città unica al mondo. Durante i giorni di FabrianolnAcquarello abbiamo la possibilità unica di poter vedere i nostri monumenti, i nostri scorci, le cose che quotidianamente guardiamo distrattamente passando senza vederle realmente, attraverso i colpi di pennello di artisti provenienti da tutto il mondo.

Per alcuni giorni il centro di Fabriano rallenta i suoi ritmi e possiamo tuffarci tra i colori degli acquarellisti che hanno eletto, di fatto, Fabriano la capitale mondiale dell'acquarello. Sono giorni nei quali l'arte si respira visitando le esposizioni o semplicemente camminando per il centro storico. Un foglio di carta su un cavalletto o su un appoggio di fortuna, un pennello e una tavolozza di colori, sono tutto ciò che occorre per annullare differenze di cultura e provenienza degli artisti che lanciano così un segnale forte e chiaro: l'arte è in grado di rappresentare un linguaggio universale e di unire i popoli.

A noi il compito di accogliere gli artisti nel migliore dei modi per farli sentire, anche a Fabriano, cittadini del mondo.

## FabrianolnAcquarello 2018

Sometimes we need to see our city through the eyes of a "foreigner". We need it because too often we take it as a obvious commonplace and we do not realize we live in a city that is unique in the world. During the FabrianolnAcquarello dates we have the single possibility to see the architectures, the views and all the usual places we watch every day passing by without really seeing them, through the brush strokes done by the international artists coming from all over the world.

For a few days the Fabriano town center slows down its rhythms and we can dive into the artists colors who have elected, in fact, Fabriano the world capital of watercolor. During these days art can be breathed by visiting the exhibitions or even by walking through the historic town center. A sheet of paper on an easel or lied on a random shelf, a brush, a color palette, this is all that is needed to cancel differences in culture and in geographical location of any artist, it is a strong and clear sign: art is able to represent the universal language and to unite peoples.

We are responsible for welcoming the artists in the best possible way to make them feel, in Fabriano, citizens of the world.

# Technical support of **Fabriano in Acquarello**

Fabriano  
in Watercolor  
2018

with

# 2018 ninth edition of FabrianolnAcquarello close a long journey with the intent to open a new frontier

“**FabrianolnAcquarello**” is the Watercolour International Convention held in Fabriano, the Italian city in Marche Region, that gave birth to European paper in 1276.

The convention was started in 2010, when the first edition was organized with an elite of Italian artists. FabrianolnAcquarello has then grown exponentially to become an international meeting point of watermedia painting on paper and **focus place of comparative competences for more than 70 international art communities**.

**FabrianolnAcquarello** was born in conjunction and to support the “Marche d’Acqua Prize” held in Fabriano every two years, the meeting is however organized with the format of a no-competitive annual international convention **with a range of collateral and preparatory events** that take place during the whole year in the city of Fabriano as well as in many other cities of the world.

**FabrianolnAcquarello** involves an international artistic community and is intended to be an appointment **to meet artists, collectors, professionals, students, the public and those people interested in watermedia painting**, without any difference.

It has therefore become in the years an event that is an annual opportunity for discussion and motivation to learn water paint technique and creativity. The intent is to offer every year a program of performances and artistic relationship work-times where the artists are encouraged to cooperate, or to observe each other’s skills, in the shared activities. **FabrianolnAcquarello** pursues also individual artistic enhancement of **the major international Masters**, by recognizing the value of each Artist in his personal style and in the relation to the organizations he belongs.

**FabrianolnAcquarello 2018** is meant to follow more strongly the setting of a convention with:

- **no competition** and no flags
- **mutual support and sharing** of experience in **common passion**
- opening **to participation of all artists in the world** because it is our belief that **ART BELONGS TO EVERYBODY**

Dear Watercolorist

in 2010 we started FabrianolnAcquarello in the intent to merge together a large community that we felt was already very powerful in creativity and technical skills, but very fragmented. We thought watercolorist would deserve an international convention: not a fair dedicated to business, but a time to physically meet and match, to personally improve in attitude and competence.

That time our goal was to join in the event the world communities, still we found the job was even more complicated because in the many incredible great countries, the communities were divided in millions small groups surrounded by solitary artists and the job was not just a matter of organizing a welcome for different cultures.

To be coherent with our philosophy we tried our best to make a more open aggregation than any other watercolor meeting had precedently had.

In the years we understood our convention was becoming the base for development of a wide community. Again we felt the community we would recognize in should have been founded on reciprocity, on positive moods, it should have had a character of not competitive behavior. We wished a community able of professional attitudes, respect, able of learning from tradition, from past experience and from differences – but most of all we wished a community able to build a future.

The journey was long and a longer road we still have to face to brake the many hamper constituted by bureaucracy and business matters - these actually constitute the barrier against the real passion for painting and they inhibit the free high intellects that is necessary to pursue Art.

This year in the catalogue we present 1.438 watercolorist - they only are a little part over the big number we have met and that we follow by the social networks. Our Community has its – less or more - solid foundation constituted by the Masters, the past and actual Leaders, the country representatives and by the many cultural differences that we have learned to be aware of and that make us be the strong and powerful minds.

Our Community has a wide skill and I feel a huge heart for which we, as artists, have the honour to be testimonials of a world where no culture can take over the others, because all are humanity treasures. Our community can be the base for a new start.

For nine FabrianolnAcquarello editions our Community has been talking about this matters, it is now time to begin a new journey. We must start to focus on ART.

Art is the higher value. Art is a bigger aim than painting and than relations, it is criticism without competition. Art is admiration of beauty, of action painting, of expression, of concepts, of man history, of new. Art has never had barriers, not personal, not inter-personal, not professional, not geographical - it would not be possible.

Art will be our link: water, pigments and paper are the beloved media to open the heart, Art is the aim that can make all the creative mind to be part of the project where no one is excluded, no one is different, in a higher value of human history where respect and tolerance we do not need to talk any more about because they are obvious.

We believe in Art: Art deserve all our respect.

Dear Artist,

never forget that life blessed us with the big gift of being artist.

I believe this is the new topic to focus on for next FabrianolnAcquarello future frontiere.

To better explain what I mean I will use the incredible poem of the greek poet Konstantin Kavafis "Ithaca" that I love so much.

The long journey, legendary Ulysses did to reach the island of Ithaca, is the allegory of any important matter which every man makes through life. Ithaca symbolizes the reason and at the same time the goal of the long journey, Ulysses and Ithaca are in complete symbiosis. **We are Ulysses and ITHACA is ART**

"...When you leave for Ithaca,  
may your journey be long  
and full of adventures and knowledge.  
Do not be afraid of Laestrigones, Cyclopes  
or furious Poseidon;  
you won't come across them on your way  
if you don't carry them in your soul,  
if your soul does not put them in front of your steps.  
I hope your road is long.  
May there be many a summer morning,  
and may ports for the first time seen  
bring you great joy.  
May you stop at Phoenician marts,  
to purchase there the best of wares,  
mother-of-pearl and coral, amber, ebony,  
hedonic perfumes of all sorts;  
may you go to various Egyptian towns  
and learn from a people with so much to teach.  
Don't lose sight of Ithaca,  
for that's your destination.  
But take your time;  
better that the journey lasts many a year  
and that your boat only drops anchor on the island  
when you have grown rich  
with what you learned on the way.  
Don't expect Ithaca to give you many riches.  
Ithaca has already given you a fine voyage;  
without Ithaca you would never have parted.  
Ithaca gave you everything and can give you no more.  
If in the end you think that Ithaca is poor,  
don't think that she has cheated you.  
Because you have grown wise and lived an intense life,  
and that's the meaning of Ithaca."  
*Art gave you everything and can give you no more.  
If in the end you think that Art is poor,  
don't think that she has cheated you.  
Because you have grown wise and lived an intense life,  
and that's the meaning of Art."  
This is the meaning of ART*

## FabrianoloInAcquarello from 2017 is The International Watercolor Museum

Even if it is only a startup it is the first Museum completely dedicated to the contemporary international watercolor and it is located in Fabriano, Italy, the place where this pictorial technique matches up with the **paper making tradition**, which is the main local excellence since the thirteenth century.

For over a decade this City in the Marche region hinterland has organized many international events dedicated to the world of water painting and has hosted a large number of contemporary artists and masters, who now acknowledge this territory as the potential capital of Acquarello.

The Museum was thus born as a testimony to an **artistic experience of international relations** and aesthetic reciprocity, by applying Relational Art to events in which masters and artists share projects and experiences, apply the technique and overwhelm it, giving the painting the role of interpretative language to better connect every culture.

The Municipal Administration, together with the InArte team, who has handled the project, placed the museum in the prestigious location of the Bishop's Palace, one of the historic buildings overlooking the famous Piazza del Comune.

**The exhibition halls host a collection of over 750 artworks.** A very interesting collection with traditional watercolor together with innovative paintings and also pictorial applications from international schools, a collection that will grow in the future thanks to new collaborations with other countries around the world.

The museum aims to be the container of the works that bear witness to the art of contemporary watercolor, but also a place of activity through temporary exhibitions, many workshops, technique demonstrations, conferences for the Waterpaint world, so that it might achieve the right artistic visibility and grow in technique and contamination towards a future that will hopefully be less traditional, very interesting and, finally, innovative.

The **Collection of the "International Watercolor Museum"** is the trace road that the international contemporary watercolor artists, along with the major masters in the world, have drawn in the past years of watercolor performances in our city. Since 2006 Fabriano has welcome hundreds of artists from all continents. They first came to trace the roots of the artistic paper manufactory, then have discovered and painted the beauty of the places in the international language of Art. The "Museum" is therefore a starting point, since it is intended to be a place that can welcome future watercolorists and reap future tracks. The "Museum" is dedicated to all the masters and contemporary artists, fans, visitors - to all those who appreciate the transparency of the natural pigment traced on paper.

It is unique in the world and celebrates the whole world, in the hope that painting, in its unique and international language with no barriers, will be the seed of knowledge, reciprocity and peace.
